

ASHRAE Supracell

- 60-65% MERV 11, 80-85% MERV 13, 90-95% MERV 14
- Excellent for use in High Humidity Environments and Variable Volume Systems
- Box, Single & Double Header and Double Turned Flange (DTF)
- Available in Standard and Special Sizes in Metal, Particleboard or Aluminum

ASHRAE Supracell filters are available in particleboard or metal frames with single or double-header, double turned flange (DTF) or box styles. Depending on the framing system, these filters are UL900, Class 1 or 2. The rigid separator type filter will provide superior filtration performance in all operating conditions.
